Farm Babies Pillows

Make and Stitch the Appliqués:

1. Print the templates; some templates will print over multiple pages and need to be taped together along the dashed lines (this is indicated on the templates).
2. Following the manufacturer's instructions, trace the templates onto paper-backed fusible web; templates have already been reversed. Label each traced template with the color fabric onto which it is to be fused (indicated on each template).
3. Cut out the traced templates, leaving a $\frac{1}{4}$ " margin around the edges.
4. Following the manufacturer's instructions, fuse the traced templates to the **wrong** side of each appliqué fabric.
5. Using very sharp scissors to minimize fraying, cut out the fabric appliques along the traced lines.
6. Follow the **Placement Diagrams** to place the appliques on each pillow front, centering each animal on the 16" X 16" square. Remove the paper backing from the fusible web and pin each appliqué in place as you go. Appliques will overlap one another:
 - a. The **Horse** Head will overlap the Horse Ears; the Horse Forelock, Forehead, Mane, and Eyes will overlap the Horse Head; the Horse Nostrils will overlap the Forehead, the Snout will overlap the lower parts of the Nostrils, and the Mouth will overlap the Snout.
 - b. The **Pig** Ears, Eyes, Snout, and Mouth will overlap the Pig Body; the Pig Nostrils will overlap the Snout.
 - c. The **Rooster** Body will overlap the Rooster Tail and Feet; the Rooster Head will overlap the Body and Crest; the Rooster Eyes and Wattles will overlap the Rooster Head, and the Beak will overlap the Wattles.
 - d. The **Cow** Head will overlap the Horns; the Cow Snout, Ears, and Eyes will overlap the Head; the Nostrils and Mouth will overlap the Snout.
7. When you are satisfied with your layout, use an iron to permanently fuse the appliques to the background, again following the manufacturer's instructions (remember to remove pins before fusing!)
8. Stitch around each shape to secure to background. A zig-zag or machine blanket stitch can be used, using matching thread or invisible thread. A straight stitch can also be used, although this will result in more fraying of the appliqué fabrics along their edges.

Finish the pillows:

1. For each 16" X 10 $\frac{1}{2}$ " rectangle, fold over one 16" edge $\frac{1}{4}$ " and then again $\frac{1}{4}$ " and stitch to create a hemmed edge.
2. Place the appliquéd pillow front with the right side facing up. Place the two pillow back panels with right sides down, and align the raw edges with those of the pillow front; the finished edges of the panels should overlap one another. Pin in place

3. Stitch around the outside edges of the pillow cover $\frac{1}{4}$ " from the edge.
4. Clip corners, turn right side out, and insert a 16" X 16" pillow form.

Template Printing Instructions

- Print using the latest version of Adobe Reader (available for free at www.adobe.com/products/reader.html). *Do Not* print from your browser, as this will not give you the full range of scaling options.
- Print full size: in print dialog box, set printer options to ***"Do not scale" or "Actual Size."***
- Refer to the grey one inch box to ensure printing at correct size
- Some templates will need to be taped together; use the dashed lines to align the pieces of each template
- Templates do not include seam allowance
