1/4" Seam Allowance Check

To check if your seam is accurate, cut three 1 1/2" x 3" pieces from scrap fabric.

Sew the pieces together along the 3" side, using what you believe is a 1/4" seam.

Press away from the center piece.

Measure.

The center piece should be exactly 1" wide.

If, when you measure, the center is less than 1", your seam allowance is too large. You need to move the needle to the right.

If it's more than 1", your seam allowance is too small and you need to move the needle to the left.

Consult your machine's owner's manual for instructions on moving your needle position.

Repeat this check until your center strip measures correctly.

BLOCK A:

Make 4

1. Stitch one fabric D and one fabric G 2 1/2" x WOF strips together. Slice into sixteen 2 1/2" x 4 1/2" pieces.
2. Stitch one fabric D and one fabric C 2 1/2" x WOF strips together. Slice into sixteen 2 1/2" x 4 1/2" pieces.
3. Combine the pieces to make sixteen four-patch units as shown. Square to 4 1/2".

4. Stitch one template A and one template B to one fabric D template C. Make four units. Square to 4 1/2".
5. Stitch one template A and one template B to one fabric B template C. Make twelve units. Square to 4 1/2".

6. Draw a diagonal line on four fabric F 2 1/2" squares. Place one square on the corner of one fabric H 4 1/2" square. Stitch on the drawn line. Cut away excess, leaving a 1/4" seam allowance. Press triangle outward.
7. Repeat on the other three corners. Square unit to 4 1/2". Make four units.

8. Combine the units as shown to complete the block. Square to 12 1/2". Make four blocks, alternating the placement of the fabric D template C piece. (marked with red star)

BLOCK B:

Make 5

9. Draw a diagonal line on four fabric A 4 1/2" squares. Add four squares to one fabric B 12 1/2" square as in step #6. Square blocks to 12 1/2". Make five blocks.

12. Cut two fabric I $4\frac{1}{4}'' \times \text{WOF}$ strips in half. Add a whole strip to each piece, making four $1\frac{1}{2}$ strip lengths. Add to the quilt, mitering corners.
