Curved Sewing Instructions
All prints will be referred to by the last two digits of the sku. For example, 40002-1 Ocean will be referred to as 2-1, 40002-2 will be 2-2, and so forth. All seams are sewn with a 1/4" seam allowance.

1. Fold the template A and B pieces in half and gently finger press at the fold to mark the center of each piece. Clip the curved edge of the Template B pieces almost to the seam allowance. This will make easing the pieces easier.

2. Use the chart on the next page as the guide for this step to match the fabric prints. Make the Quarter Circle Blocks for each row. Pin the Template B pieces right sides together to the Template A pieces, matching ends and centers. Slowly sew the curved seam, easing the Template B pieces to match the curved raw edge of the Template A pieces. Press towards the Template B pieces and trim the blocks to 6 1/2" square, trimming ONLY from the Template B pieces (there is extra built into the template for this purpose).
3. Following the **Final Layout Guide**, sew the quarter circles and 6 1/2" squares together for each row, paying close attention to the orientation of the quarter circles. Sew the rows together in order from 1 to 7. Press the top well.

4. Layer the quilt top with batting and backing; baste. Quilt as desired. Using the 2 1/4" wide binding strips, sew around the quilt top. Turn the binding to the back and secure in place by hand or machine.
This box should measure 1"
