WINDHAM FABRICS

39019-X Multi award icons
    Fussy cut a minimum of 6 icons to scatter onto the center section of quilt top
    Note: this is the perfect time to pick one for a special teacher and personalize it with their name
Green scraps
    Cut (1) apple stem and leaves for top of apple using template provided.

Assembly:

1. Take apple, stem pieces and icons and lay them onto the black center fabric. Arrange them following the picture or as you like. Make sure you place them at least 2" from the outer edge. Applique following your favorite method. We used Misty Fuse® on the back to secure the position, then added a zigzag stitch around the outside edge in a matching color.

2. Take the (2) ipad and notebooks strips and attach them to each side of the center rectangle.

3. Take the (1) stack of books strip and add it to the bottom.

4. Take (1) computer keyboard strip and attach it to the top. Take the other strip and attach it to the bottom.

5. Take the completed top, batting and backing and quilt as desired.

6. Take the binding strips and sew them together then bind off your quilt.

This also makes a perfect wall hanging so you might want to add a rod pocket at the top back of the quilt before you add the binding.
