Sewing Instructions

To assemble quick half square triangle blocks, place two 6" contrasting squares, right sides together and draw a diagonal line across the lightest block. Stitch 1/4" from either side of the drawn line and cut apart on the line. Press open and trim block to 5 1/2", if necessary.

Reserve six light red blocks to cut on the diagonal without sewing to use as half square triangles around the center square.

Following the quilt layout, place light and dark red, green and neutral squares right sides together to create half square triangle blocks as shown, alternating light and dark when possible.

Assemble eight rows into horizontal units for the center of the quilt, ending with the light red half square triangles around the 18 1/2" square. Pin and stitch these rows together into triangle units and then sew the units to the center square. See diagram below.

Continue piecing and adding the remaining units to complete the quilt center.

Piece and trim two gold 2 1/2" strips to measure 50 1/2" and attach to the sides of the quilt. Repeat to make two 44 1/2" strips to sew to the top and bottom.
