Sewing instructions:

1. Iron fusible onto each plane shape, following manufacturers instructions and peel off backing. Then, following the photograph on the cover, match each plane with the appropriate background fabric. Pay attention to the direction of the plane (some of them turn!) and the direction of the background fabric. Once you have ironed the planes on, sew around the edge of each shape with your favorite machine applique stitch.
2. Sew the prepared background fabrics together with the 2.5 x 17.5 inch black rectangles to create four rows of three blocks each with black sashing in between.
3. Using the 2.5 x 59 inch black strips in between each row, sew the four rows together.
4. Using the 1.5 inch black border strips, sew black border around all four sides of quilt beginning with the 1.5 x 59 inch strips on the top and bottom.
5. Iron fusible onto each circle, half-circle and quarter-circle, following manufacturer's instructions and peel off backing. Apply the shapes to corners of the blocks using your iron and following the layout on the cover. Sew around the raw edges of the shapes with your favorite machine applique stitch.
6. Using the orange camouflage border strips, sew the second inner border to the quilt, beginning with the top and bottom strips.
7. Using the blue camouflage border strips, sew the outer border to the quilt, beginning with the top and bottom strips.
8. Quilt and bind using your favorite method.
